

SERIOUS WARNING TO AMERICA'S CHRISTIANS!!!

This warning was found on my feed on another website, heed the warning!

All my life I've had dreams and visions THAT COME TRUE. America will burn. When Russia attacks the first targets will be the missile silos and the two ship yards where the boomers are docked and the SAC bases will be bombed and destroying our bombers on the ground. I did not need prophesy to say this. All I did was listen to a real expert on nuclear war, Peter Pry.

Before all this happens they will come and round all the people like you up and put you into Fema camps for re-education or extermination. Yes the US government will round up people while they are in church and make them prisoners in death camps. And the leaders will be taken to underground prisons to be tortured to death and some will be turn into SRA's (Satanic Ritual Abuse). This is not from book or a DVD or some apostate preacher, this is "Thus Saith the LORD".

Since 2014 I've been telling people to leave America. "Race war, civil war, world war, America loses"
